

Perfect for mini posters, letters home and displays

MINI POSTERS

Create quick classroom posters or notices on your computer or by hand.

NOTES HOME

Keep notes sent home from getting lost with colourful paper themes to get them noticed.

EASY PAPER LANTERNS Fold a piece of paper in half length wise. Cut long slits in the paper evenly along the fold. Unfold, lap the edges with the fold out, and glue. Use ribbon or a strip of paper to create a lantern hanger.

PAPER BUTTERFLIES

Fan fold a sheet or two of paper and secure with a black pipe cleaner twisted round the center of the folds. Shape the ends of the pipe cleaner into antennae, and spread out the fan folds for the wings. Decorate with sparkle stickers for extra zazzle!

MINI AWARDS A hand written note of encouragement makes an impact! Use some paper to send a memorable message to a student. To deliver, fold a second sheet of paper around your note, and seal with a mini cut-out card or sticker.
